Instructor Information

Instructor: Rachel Caruthers
Office: LRS 237
Mailbox: LRS 250
Office Hours: Mon/Wed 12:15-1:15pm
Tues/Thurs 9:30-10:30am & 12:30-3:30pm
Friday Upon Request
Phone: (501) 812-2351
Email: rcaruthers@uaptc.edu *(Best and Fastest way to Contact Me!)*

*All emails and telephone calls will receive a response within two business days.

Chair: Denise Hammett (501)812-2874 dhammett@uaptc.edu
Dean: Dr. Marico Bryant Howe (501)812-2342 mbryanthowe@uaptc.edu

*If your emails and telephone calls do not receive a response within two business days, the appropriate chain of command is above.

Course Information

**Delivery Method – In Person:**
This course meets face-to-face in a classroom. As such, the instructor is physically in the classroom and delivering content in a face-to-face format for ALL meetings of the class. Students are expected to be in class for the duration of each class meeting and to participate in taking notes, asking and answering prudent questions. We may make use of computers, internet, or other electronic media in the classroom on any given day. Students may be directed to online material provided by the publisher, or to other internet accessible sources as part of their course work.

**Class Days and Meeting Times:**
Tuesday & Thursday – 8:00am to 9:15am – Classroom: LRS 226

Catalog Description

3 Credit Hours (3 hours lecture per week)

This course is a study of functions including, but not limited to, absolute value, quadratic, polynomial, rational, logarithmic and exponential; systems of equations; and matrices. This course satisfies the state-mandated requirement for the baccalaureate degree and is appropriate for STEM majors, such as Science, Technology, Engineering, and Mathematics or for those courses requiring College Algebra as a prerequisite.
A TI-83 or TI-84 graphing calculator is required and course requires an online learning component.

PREREQUISITE: Students enrolled in MATH 1302 must meet one of the following requirements:

- A minimum score of 22 on the mathematics section of the ACT
- A minimum score of 97 on the Accuplacer Elementary Algebra Placement Test
- A minimum score of 50 on the COMPASS Algebra Placement Test
- A grade of C or better in MATH 0402 Transitional Algebra
- A grade of C or better in MATH 0302 Foundations of Algebra and enrolled in corequisite MATH 0102 College Algebra Support course
- Permission by the department chair or division dean

Course Materials

Disclaimer: UA-PTC will not guarantee materials purchased anywhere other than the UA-PTC bookstore. The purchase of codes for the online environment should be purchased through the UA-PTC bookstore or directly when registering for the online environment by following the instructions supplied by your instructor. Please take a picture of your code for safe keeping as lost codes cannot be replaced.

Required Materials:

MyLabsPlus Access Code ISBN: 9780558926809  (There is an etext pre-loaded).  Or

Calculator: A TI-83 or 84 calculator is required for the course. No other brands of calculator will be supported and no Texas Instrument models other than 83’s and 84’s will be discussed. TI-89 and TI-Nspire models cannot be used.

(Please note, you do not need to purchase the physical textbook unless you prefer to have an actual book versus an etext book which can be viewed in the MyLabsPlus software. So, you can purchase the MyLabsPlus Access Code listed above or you can purchase the actual book which comes with an Access Code. You will need the calculator mentioned above.)

If you have been awarded financial aid but have not received funds, you can take your schedule down to the UA-PTC bookstore and they will charge your books to your account. This will allow you to purchase your book early and will alleviate you getting behind this semester.

Free Tutoring is offered on both UA-PTC south and main campus. Information provided at http://www.uaptc.edu/footer-navigation/tutoring-center
MLP Technical Support: If you are unable to install the necessary software and plug-ins or the program is not running properly, you may contact the MyMathLab Student Support Line at: 1-800-677-6337 Monday-Friday, 12 pm to 8 pm. (All times are Eastern Standard Time.)

*Do not contact the UA-PTC IT services department for assistance with MLP issues. Please be sure to contact the 1-800 number that was provided above.*

**Student MyLabsPlus Access**

MyLabsPlus Web Address: [http://pulaskitech.mylabsplus.com/](http://pulaskitech.mylabsplus.com/) or you can also access the MLP link in UA-PTC’s Portal.

- **Student MyLabsPlus Username:** The first two letters of your first name, your entire last name, and the last four digits of your student ID.
  
  Your MLP Username: ____________________________________________

- **Student MyLabsPlus Password**: Ptcmmddyyyy (this is the letters “Ptc” and your birthdate)
  
  Your MLP Password: ____________________________________________

  *If you have previously used MLP with UAPTC, you will need to use that password instead.*

Once you login in to MyLabsPlus,

1. You will be prompted to accept the terms of the Pearson User License Agreement and Privacy Policy. Click I Accept once you have read the terms of use.
2. You will be prompted to enter the access code that you received with your book. **If you have already purchased the book, chose “Access Now”**.
3. If you do not have a code, you will choose “Pay Later”. This will give you 14 days of **Temporary Access**, which will begin on the day you registered in the course. This means that the temporary code could expire at different times for each student since it is based upon the date each student registers into the system. You will need to purchase your book before the temporary access code expires or you will be locked out of MyLabsPlus and you will not have access to your work which could result in zeros on assignments that were missed. **DO NOT LOSE YOUR ACCESS CODE ONCE YOU HAVE PURCHASED IT. YOU WILL NOT BE ABLE TO ENTER IT UNTIL THE TEMPORARY ACCESS CODE EXPIRES.**

If you have trouble logging in, entering your code or experience issues with not being able to access the course, please contact the Chair of the department. Her name is Denise Hammett and her email is dhammett@uaptc.edu. Please send as much information as you can about the situation including screen shots along with a good working phone number, your username and birthdate.
Mission Statement

University of Arkansas – Pulaski Technical College provides access to high-quality education that promotes student learning and enables individuals to develop to their fullest potential.

Institutional Learning Outcomes and General Education

UA-PTC supports a college-wide institutional learning assessment program which concerns effective instructional methods and promotes student learning achievement by assessing:

1. Information Literacy
2. Technology Literacy
3. Communication
4. Critical Thinking
5. Quantitative Reasoning
6. Cultural Awareness
7. Professionalism

For more information, please consult the following website: https://uaptc.edu/sla

Department / Program Learning Outcomes

The mission of the math department is to prepare students with the mathematical knowledge and understanding necessary for students to accomplish their educational goals. The math department aims to teach, advise and consult on any mathematical related matter whether a student wishes to successfully transfer to a four year college, gain entrance into the workforce, enhance their personal skills or further their lifelong learning pursuit.

Upon successful completion of the required math courses,

DLO #1: Students will demonstrate the ability to use symbolic, graphical, numerical and written representations of mathematical ideas.
DLO #2: Students will use mathematical reasoning and, when appropriate, a general problem solving process to solve problems.
DLO #3: Students will learn mathematics through modeling real-world situations.
DLO #4: Students will use appropriate technology to enhance their mathematical thinking and understanding, solve mathematical problems, and judge the reasonableness of their results.
Student Learning / Course Outcomes

ACTS

The student will demonstrate:

- The ability to perform and solve basic function operations and algebraic problems using appropriate vocabulary
- Critical thinking to formulate decisions and problem solving based on reasoning and analysis
- The appropriate use of technology to supplement and enhance conceptual understanding, visualization, and inquiry
- The ability to synthesize information from a variety of sources to solve problems and interpret results

The student will demonstrate a basic understanding of functions including:

- Absolute values
- Quadratic
- Polynomial
- Rational
- Logarithmic
- Exponential
- Graphing of inequalities and quadratic inequalities

The student will demonstrate an understanding of the application of the following topics:

- Systems of equations
- Matrices

Policies

Report a Complaint or Concern

UA-PTC takes very seriously complaints and concerns regarding the institution. Most complaints or concerns of a specific nature should be initiated and resolved at the campus level through normal college processes whenever possible. UA - Pulaski Technical College receives and resolves complaints using a variety of methods. To report a complaint or concern, please follow the link below.

[https://www.uaptc.edu/report-a-concern-complaint](https://www.uaptc.edu/report-a-concern-complaint)

UA-PTC Attendance Policy: Education at UA-PTC requires students’ active involvement in the learning process. Thus, students are expected to attend all classes and actively engage in all learning assignments and/or opportunities provided in their classes. Class attendance should be treated as mandatory by all students as attendance will be taken by all instructors during the first two weeks of class.
Departmental Attendance Policy
Agencies granting financial assistance may be notified of the violation of the attendance policy by students receiving financial aid.

Attendance is taken starting the first day of the semester and throughout the semester. Teachers have the right to count students as absent if they arrive late to class, leave class early, or go in and out of the classroom during class time. Teachers have the right to lower a student’s grade based on excessive absences as outlined in the syllabus for the course. Instructors set the attendance policy for courses and students must follow those policies.

Any student who does not attend class before the roster certification date will be considered a “no show” according to the campus attendance policy and will be reported as such and dropped from the class. Students who were dropped because they had not attended class, will not be allowed back into the course during that specific term; refunds are automatically added to the student’s account for being reported as Never Attending a class. Instructors set the policies for counting students as “no shows” in the online environment and it is the student’s responsibility to follow those policies.

Regular and consistent attendance should be maintained in order to be successful in this course. Excessive tardiness and/or absences are considered discourteous to the instructor and the learning environment and can be a detriment to successful course completion. Students who are absent for any portion of a class session miss important information from lectures, class discussions, handouts and assessments, and can easily fall behind on the material. As mastery is a basis for progression, students will need to be present each day for the entire class session. Following an unavoidable absence, the student has the responsibility for completing all activities missed as allowed by the instructor. Instructors in the online environment establish the attendance policies and the requirements for success and it is the student’s responsibility to adhere to those policies.

Drop Date: The last day to drop a course or withdraw from the college is Wednesday, April 17, 2019. A student should consult with their instructor and financial aid (if applicable) before submitting a drop form. A student can request to drop or withdraw by visiting the student services office on any campus or by submitting a written, faxed request. Faxed requests can be sent to (501) 812-2316 and must contain the student’s name and student ID number, a statement of which course you wish to drop or a statement that you are withdrawing from all courses, your signature, and a copy of your state-issued photo identification. Instructors do not have an administrative drop option and cannot drop students from courses; it is entirely the student’s responsibility to complete the process if they wish to drop from the course.

Daily Course Attendance Policy: Students will be required to sign a roster (sign-in sheet) every class to prove their attendance and as part of keeping records. If a student forgets to sign, the student will be marked absent. The roster will be taken up 5 minutes after class begins. Anyone coming in after that time will be marked absent. Students are expected to be in a seat, ready to take notes, when class begins. If the student misses lecture, that student should get the missed material from a fellow student, go over it, then go to the instructor after class or during office hours to ask any questions.
The instructor may also have scheduled class activities, tests, or quizzes for a set amount of time. If a student missed the beginning of such, the instructor is under no obligation to give them longer than the set amount of time the instructor scheduled.

Course Policies:
The UA-PTC Catalog rules and regulations will be enforced in this course at all times.

Please consult the following website for more information: https://www.uaptc.edu/catalog
Professional behavior is required. Punctual attendance and intelligent participation are expected. Particulars, as determined by the instructor, are detailed in the paragraph(s) below.

Appropriate behavior is expected for all communications, including any notes, email messages, or telephone conversations. Some guidelines for communication are included in this syllabus to help you.

Campus Visitors Policy: Classrooms and laboratories are restricted to currently enrolled students only. Visitors are not allowed in any classroom or laboratory where a scheduled course is being taught. At no time are children allowed in the classroom during times when scheduled courses are being taught. Additionally, when it is necessary to bring children to campus, they may never be left unattended. At all times, children remain the sole responsibility of the parent.

Incompletes: The requirements for awarding a grade of incomplete, “I” can be found in the College Catalog on page 31 by using the following link: https://www.uaptc.edu/catalog.

Math Department Chair: Denise Hammett, dhammett@uaptc.edu. The department chair may be contacted as a next point of contact. The department chair will not overturn decisions made by the instructor based upon the policies or requirements of the syllabus.

Cell Phones: Please turn cell phones off or to vibrate mode during class time. Texting during class or doing other things on your phone, tablet, smart watch, or other electronic device during class not related to the course is a disruption and will not be tolerated. No cell phone or other electronic devices (other than graphing calculator) can be used during tests.

Email Policy: Due to UA-PTC’s board policy and privacy issues, please only send emails from your UA-Pulaski Technical College email account. UA-PTC employees (and students) can only receive and send official email through UA-Pulaski Technical College’s email accounts.

Students should include their first and last name, course, and purpose in the subject line of the email. (e.g. “John Doe CA-52 concerning attendance”)

Timely Response: Instructors will normally answer emails and voice mails within 24 hours, except for weekends and times when the college is closed.
Homework: All homework will be worked in MyLabsPlus. MyLabsPlus will keep track of your homework grade which will be used in calculating your total grade. To be successful in the class, all homework needs to be worked.  **At the end of the semester, the two lowest homework scores will be dropped. You are allowed to rework the homework assignments for extra practice and for a higher score (up to 100%) as many times as you like until the due date.** Please be responsible and do assignments by the Due Date shown in MyLabsPlus. With few exceptions, the due date for each homework assignment will be one week after the material is covered in class.

Grading Policy:

Letter grades will be based on the following scale:

- 90 to 100% A
- 80 to 89% B
- 70 to 79% C
- 60 to 69% D
- 0 to 59% F

Homework: 15%
Quizzes: 10%
Unit Tests: 50%
Final Exam: 25% (Student will receive an F for the course for failure to take final exam).

**Course Average will be calculated as follows:**
\[
(\text{Homework Avg} \times 0.15) + (\text{Quiz Avg} \times 0.1) + (\text{Unit Tests Avg} \times 0.50) + (\text{Final Exam} \times 0.25) = \text{Final Course Grade Average}
\]

[MyLab'sPlus always gives your current average]

Homework – Homework will be assigned for each section discussed. Homework problems will be found in MyLabsPlus. Homework should be worked out on paper and kept in an organized notebook so you will have something to study at test time. Answers obtained for the homework problems need to be entered in MyLabsPlus. You'll have aids you can click on to help you work the problems if you have trouble or need help.  **MyLabsPlus will keep track of your homework percentage. The two lowest scores will be dropped at the end of the semester. Homework will count as 15% of your total grade.**
Quizzes – Quizzes will be given in-class only. A set amount of time will be given for students to complete the quiz in class. If a student is late or steps out during the quiz, the instructor is under no obligation to give the student extra time. Quiz topics will be on any previously covered material. These may include lecture, notes, homework problems, or test questions. **MyLabsPlus will keep track of your quiz percentage. The two lowest scores will be dropped at the end of the semester. Quizzes will count as 10% of your total grade.**

Tests – Four unit tests worth 100 points each will be given, each with a multiple choice section and short answer section. Students will have the entire class to complete the test. A study guide will be given to help students prepare. **At the end of the semester, the final exam percentage will be used to replace the lowest of these test scores if the final exam percentage is higher. Tests will count as 50% of your total grade.**

Final Exam – There will be a two hour, multiple choice, comprehensive, paper/pencil final exam. If the final exam is missed, the student will receive a grade of “F” for the course. A study guide will be given to help students prepare. **The final exam will count as 25% of your total grade.**

* Instructors have one week to provide feedback and post grades for all assignments unless otherwise noted by a departmental policy that has been approved by the Dean of the School.

**Assessment/Testing** – Quiz, exam, and/or final exam problems will be based on concepts presented throughout the semester. They will be similar to examples worked in class and assigned homework. Thus, it will be in your best interest to attend class, take notes, participate in classroom discussions, and complete the assigned homework. Problems will either be true/false, multiple choice, short answer or traditional “show your work” type problems.

Students are strongly encouraged to use pencil on any assessment, though black or blue ink are also acceptable. **Any assessment turned in worked in bright colors (i.e. orange, bright green, highlighter, etc.) will be given a 0.**

Do not expect to receive full credit on short answer or “show your work” problems unless you provide meaningful steps which lead to the correct answer. **Answers with nonexistent, meaningless, “reactive”, and/or incorrect work will not receive full credit even if the final answer is correct.** In math, the problem-solving process is much more important than the final answer.

**Make-up and Late Policy:** Tests that are missed cannot be made up. **If one test is missed for any reason, the grade on it will be 0 until the end of the semester when the final exam percentage will be used as the score on that missed test.** If more than one test is missed, the grade on the second missed test will remain a 0. Arrangements can be made to take a test at a different time if the instructor is notified in advance by the student and there is a legitimate reason for rescheduling (examples would be: surgery, National Guard training, funeral, jury duty, etc.). **Any arrangement must be made before the day and time of the scheduled test. Exceptions on a case by case basis to be determined by the instructor.**
**Academic Integrity**: It is expected that all students who attend UA-PTC conduct themselves in a manner appropriate for the college experience. Academic integrity is a vital component of collegiate behavior. The UA-PTC catalog states, “The gaining of knowledge and the practice of honesty go hand-in-hand.”

The catalog also states, “The responsibility and authority of initiating discipline arising from violations of the rules against dishonesty during the process of the course are vested in the instructor of that course.”

The complete Academic Integrity Policy is in the UA-PTC code of conduct. [https://www.uaptc.edu/catalog](https://www.uaptc.edu/catalog)

**Academic Dishonesty** (Copyright © 2012 by Jim Vander Putten):

The following definitions are the most common forms of academic dishonesty.

1. **Cheating**: Students shall not give, receive, offer, or solicit information on examinations, quizzes, etc. This includes the following classes of dishonesty:
   a. Copying from another student’s paper.
   b. Use during the examination of prepared materials, electronic materials, notes, or texts other than those specifically permitted by the professor.
   c. Collaboration with another student during the examination.
   d. Buying, selling, stealing, soliciting, or transmitting an examination or any material purported to be the unreleased contents of a coming examination, or the use of any such material.
   e. Substituting for another person during an examination or allowing such substitution for oneself.
   f. Bribery of any person to obtain examination information.

2. **Collusion**: Collusion is defined as obtaining from another party, without specific approval in advance by the professor, assistance in the production of work offered for credit, to the extent that the work reflects the ideas of the party consulted rather than those of the person in whose name the work is submitted.

3. **Duplicity**: To offer for credit identical or substantially unchanged work in two or more courses, without specific advance approval of the professors involved.

4. **Plagiarism**: To adopt and reproduce as one’s own, to appropriate to one’s own use, and incorporate in one’s own work without acknowledgement the ideas or passages from the writings or works of others.

For any instance of academic dishonesty that is discovered by the instructor, whether the dishonesty is found to be cheating, collusion, duplicity, or plagiarism, the result for the student or students involved will be that the instructor will assign a grade of F for the examination or assignment involved. The offense may also be reported to the Dean of Students following UA-PTC policy. A ‘zero tolerance’ policy regarding academic dishonesty is in effect for this course. Please refer to the UA-PTC Student Handbook referenced above for specific rights and responsibilities surrounding any allegation of academic dishonesty.
Accommodation Policy
Services for Students with Disabilities: UA-PTC is committed to fulfilling all federal requirements as stated in the Rehabilitation Act of 1973, the Americans with Disabilities Act of 1990, and the American with Disabilities Amendments Act (ADAAA) of 2008. Accommodations are available to students who have documented disabilities. Students who request accommodations must register with the Disability Services Office (Main Campus: 501-812-2738 or South Campus: 501-812-2862) and must provide current and relevant documentation. Students requesting accommodations should inform the instructor at the beginning of the course or as soon as accommodations are approved. It is the student’s responsibility to provide their Accommodation Letter to the instructor. Accommodations are not retroactive and will only be provided once your instructor receives the Accommodation Letter.

Student Code of Conduct
All students are expected to abide by the UA-PTC Student Code of Conduct. For the full Student Code of Conduct, access the most current version of the UA-PTC Academic Catalog. https://www.uaptc.edu/catalog

Sexual Misconduct
No person at UA-Pulaski Technical College will, on the basis of gender, be excluded from participation in, be denied benefits of, or be subjected to sex discrimination, sexual harassment or sexual misconduct under any education program or activity. All college administrative policies and procedures regarding sex discrimination, sexual harassment, and sexual misconduct are in compliance with Title IX. Students who feel they are victims of sexual misconduct should contact the UA-PTC Title IX Deputy Coordinator for Students:

Michelle Anderson, Director of Student Life and Leadership
Campus Center Building Room 216
501-812-2756
manderson@uaptc.edu

Course Evaluations
Students may be asked to evaluate their instructor and course near the end of the semester. These student evaluations are very important to the improvement in the quality of instruction and course materials. All results are anonymous and shared with the faculty only after the semester is over and grades have been posted.

Information Literacy
UA-PTC is committed to the Information Literacy Competency Standards for Higher Education as established by the Association of College and Research Libraries and endorsed by the National Forum on Information Literacy. Therefore, all courses will incorporate an information literacy component so that, by graduation, all students will be able to recognize the need for information, then locate, evaluate, synthesize, and communicate information in an ethical manner. Information literacy encompasses critical thinking, research, media, technology, health, business, and visual literacy skills to produce lifelong learners who can make informed decisions in the workplace and in their personal lives.
Daily Class Plan

Attendance: There will be a sign-in roster available upon entrance to the classroom.

Homework: The beginning each class will be a portion of asking/answering any homework questions concerning previously covered material. (For expediency a student should specify the section first, then the problem number when asking the instructor. (eg “I had difficulty with section 2.4, number 3.”)) If no student has specific questions, the instructor may address certain chosen homework problems instead.

Quiz: Class may continue with a quiz. A set amount of time will be scheduled. If a student arrives late to class, they will not be given extra time and must hand in the assignment with the rest of the class. (For example, if a 10-minute quiz is given and a student arrives 8 minutes late, the student will only be allowed the remaining 2 minutes to complete as much of the quiz as possible.)

Lecture: Lecture/Notes will run the rest of the allotted class time. Students should not count on being “let out early.” Any “leftover” time will be spent covering practice homework questions.

Daily Materials Necessary: Calculator (TI-83 or TI-84 required); pencil (mechanical is recommended); pen: black, blue, red (green, purple, and orange are also a good idea, though not required); highlighter: yellow, pink (orange, blue, green also recommended, but not required); notebook (see attached sheet) with blank lined paper.

Alternatives: Use of color-coding is highly recommended and greatly encouraged. However, the instructor understands that different organization techniques are more comfortable for different students. So, if a student prefers colored pencils to pens for the different colors, that is fine. It is the variety that is important.

If a student has trouble procuring any necessary/recommended materials, they should speak privately with Miss Rachel as soon as possible so that this can be resolved.

Stuff Happens!

Servers go down; computers don’t work as anticipated; life throws us curveballs. Be prepared!

Do not wait until the last minute…you may experience completion difficulties! Work ahead of schedule and have a backup plan at a different location in case something happens at your usual location or to your computer; occasionally use your backup plan to make sure it works! Remember that you can use the open labs at PTC and the public libraries have computers.

We do not anticipate difficulties with the MLP server, however if the server goes down unexpectedly, the instructor will try to be lenient about a specific assignment due date, but you should never wait until the day an assignment is due.

Procrastination is the enemy!
# Tentative Course Schedule

**Disclaimer:** This schedule is a guide for the semester. The instructor reserves the right to amend the schedule as necessary. These are not the dates to begin assignments nor the only days you should be working in MyLabsPlus.

**Class Time & Section:** TR Class – 8:00 am to 9:15 am (Section 52)

Course Agreement Form

Read, complete, and return to instructor:

I have read the course syllabus for Rachel Caruthers' class at UA-Pulaski Technical College, and I understand its content. I also understand the rules for the class, and I will follow and abide by these rules, including those relating to attendance, assignments, grading criteria, plagiarism, and behavior.

I understand that I must do each of the following to be successful in this class.

1. Attend class regularly and pay attention while there - which means I will not daydream, I will not text, I will not be doing stuff on my phone, tablet or laptop.
2. Take good notes during every class and keep my notes/work in an organized notebook dedicated to College Algebra.
3. Do all homework problems assigned as soon as the section is taught, bring those homework problems to class the next time and ask questions about those I did not understand.
4. Seek help from my instructor or from the free tutoring the college provides (in Room 220) as soon as I don't understand what is going on.
5. Study thoroughly for each test and don't assume I can get by with just watching problems worked in class.

I understand that:

1. I need to use my UA-PTC email address to email my instructor.
2. If I fail to take the final exam it will result in a grade of F for the course.
3. If I miss a quiz or test I will not be allowed to make it up.
