BRAUN INTERTEC

• CMT Field Service Technician

Texarkana, TX

Tyler, TX

• Braun Intertec is seeking Experienced Construction Materials Testing Technicians to join our Texarkana, Texas office. As a technician, you will perform a variety of testing on construction materials such as soils, concrete, masonry, and asphalt. Onsite materials testing is conducted on various commercial and transportation construction projects located throughout Minnesota.

The chosen candidate(s) will receive in-depth technical training and industry certifications upon successful completion of examinations and demonstration of ability. This is a career opportunity to become a member of a highly successful, fast paced team with a steady and growing backlog of exciting projects.

Candidates should be comfortable working outdoors in varying weather conditions and be able to lift 75+ pounds. The chosen candidate will frequently be required to reach with hands and arms, climb or balance, and stoop, kneel, crouch or crawl. At times, this position may be working at or on uneven terrain, varying heights, in confined spaces, or supported trenches.

Responsibilities:

- Perform field density tests of soils
- Perform field concrete testing, including slump, air content, and strength
- Prepare daily reports
- Work with project managers and senior technicians or staff to ensure specifications are followed
- Perform routine & complex sampling and testing of soils, aggregates, concrete, masonry, and asphalt
- Assist with training & mentoring of junior staff, as needed

**The ideal candidate will have:**

- A strong safety focus and attention to detail
- Excellent plan reading skills
- A demonstrated math and technical aptitude
- Flexibility to work extended or nontraditional hours as needed
- Excellent verbal and written communication skills
- State DOT certifications, ICC, and/or NICET certifications

**All candidates must have:**

- 1+ years of construction materials testing experience
- A High School diploma or equivalent
- A valid driver’s license with clean driving record for the last 3 years
- The ability to lift 75+ pounds
- ACI Concrete Field Testing Certification
