Are you looking for a stable career in a company that works year-round? We are looking for a Heavy Equipment/Diesel Mechanic to join our team. Position requires diverse knowledge on engines, transmissions, brakes, electrical systems, electronics, rear ends, hydraulics; and the ability to diagnose, repair, or rebuild them.

**ESSENTIAL JOB FUNCTIONS**
- Troubleshoot and diagnose problems related to all vehicle and equipment.
- Performing electronic, hydraulic, engine and/or brake repairs.
- Analyze vehicle and equipment maintenance data.
- Perform Annual DOT inspections and ensure compliance to all DOT and OSHA regulations.
- Complete repair paperwork and follow-up paperwork.
- Order parts when needed.
- Perform all shop and yard housekeeping procedures.
- Working on equipment such as excavators, backhoes, bore rigs, hydrovacs, trucks and trailers, utility cable reel trailers, and more.

**QUALIFICATIONS**
- Diverse knowledge of vehicle and equipment repair and maintenance.
- Must have experience in hydraulics, electronics, and brakes.
- Engine rebuilding knowledge is required.
- Must have an insurance acceptable driver’s license.
- Must have own tools.
- Must be able to operate equipment being repaired.
- Additional Information: Must be willing to travel throughout the state for equipment repairs (per diem when applicable).
- A restriction-free Class A CDL is required.

**BENEFITS**
- Full Benefits Offered - Best in the industry!
  - Health—low, low deductibles!
  - Dental • Vision
  - Short term disability • Life insurance
  - 401k with match
  - Paid holidays • Paid vacation
  - Per diem and paid hotels for qualifying travel distances

Job Type: Full-time
Salary: $18.00 to $23.00 /hour
